

ABB PLC Training - Basic

Join us for a day of hands on ABB PLC training. This course will go through the PLC portfolio, a walkthrough of the automation builder software and build a simple program.

Please come with a laptop with Automation Builder 2.2 installed.

To download Automation builder-

<https://new.abb.com/plc/automationbuilder/platform/software>

Note: Automation builder comes with a free 30-day Standard license.
When the 30 days expire it will revert to the basic version
